XTREME MX

TRIALS / ENDURO ANTI-MUD DESIGN

SUPERMOTO

Raptor Titanium produce high-quality, hand-welded footpegs that are manufactured in the UK and ridden all around the world. Endorsed and used by some of the best riders in the sport right now riding in some of the most prestigious off-road motorcycling events on the planet, Raptor Titanium strive to attain the highest possible quality, durability and performance in their products. Raptor Titanium Footpegs are manufactured using the latest techniques in hand-fabrication and laser cutting technology. Utilizing laser cut titanium to create perfect grip and maximum strength using aerospace grade Titanium and expert welding craftsmanship. Raptor Titanium offers a Two Year Replacement Guarantee on their Footpegs. Australian RRP \$ 319.95

Raptor titanium footpegs also enhance racing performance from huge weight saving compared to OEM footpegs. Weight per Pair- Mx Xtreme:- 410g Enduro:- 375g Supermoto:- 528g Trials: 350g

The Only Hand Made Footpegs on the Market
Superb construction and weld quality using Aerospace Grade Titanium
Unique design resists mud clogging and buildup
Made to last - remove and install on next bike
24 Tooth Design for Maximum Grip - with rounded tips to reduce boot wear
Super wide Base for extra Support and Grip
Safer for Feet / Ankles than OEM Footpegs for Hard Landings / Caseouts
Titanium is 3 X Harder than Stainless Steel and 6 X Harder than Aluminium.
Will not wear like anodized Alloys leaving part looking old and worn
Instant "Works" look

Raptor Titanium Footpegs are available for Honda, Yamaha, Kawasaki, Suzuki, KTM, Husaberg, Gas Gas, Husqvarna, Aprilla, Sherco, TM Offroad Motorcycles and All Ossa, Gas Gas, Montessa, Beta, Scorpa Trials Motorcycles.

Raptor Titanium Footpegs are the most used Titanium Aftermarket Offroad Footpeg in Professional Offroad racing.
