

Sizmurs “Misty Oaks”

Ferny Glen

Perfect weather and conditions were the order of the day at yet another one of our great venues. The section setters did a great job on Saturday and were done just after lunch. Their sections weren't over the top but you had to keep your wits about you, otherwise those early dabs would haunt you later. If you completed a good first lap you were in the hunt for a place, otherwise you needed some miracles to come your way. Anyway, as we're all riding for competitive fun it was still a great day and bonding with your bike made it even better. We had some guest riders, some coming out of retirement and some just wanting to give trials a go and am pretty sure they will be back after this weekend.

We weren't anticipating too many observers for the day, but as we kicked off they came out of the woodwork and most of the sections were observed, which was a real bonus for the riders and the scorers. It was really good to see some popular old faces coming back to help out, even though they themselves have put so much into trials over the years.

Now to the score tent. Karen replaced Kerryn who was sick, which meant I didn't get in trouble for calling Karen, Karen. Russell our treasurer was disappointed as we lost money going into the swear jar, even though things weren't normal we did miss Kerryn. Thanks to Chris, Peter and Karen for looking after our scores.

Considering the number of riders we had, we still managed to finish an hour early than expected. This gave most of us time to contemplate the day over a beer, the usual sausage sizzle and of course enjoy some more of that great Queensland weather.

Thank you for all the positive feedback and can't wait for our next trial.

Attached is the official score sheet and some happy snaps below.
