

Hinchcliffe's "B"

October 2019

Well this was our final round in Queensland for the year and of course the final round of our club championship. This was also the last round of our "triple treat" mini series where juniors rode for free, members rode for a discounted price and our section setters had a free weekend.

Just as well we didn't ride on Monday as the weather turned into a scorcher, the sections were pretty tight and tough especially for the Division 2 riders on the day, although Tony Green made light work of them. Brodie Reed took out 2nd place (1st junior) in Division 4, missing overall first place by 1 mere point. After the trial was finished it was interesting watching his dad "Kale" ride some of the sections.... making us scratch our heads! Division 3 had interesting results with Darren Creswell on his Armstrong taking out 2nd and Mark Haywood taking gold off him by 3 points and Paul Coleman taking the bronze.

Plenty of juniors attended the day and hats off to parents riding and mentoring their off springs throughout the day, made even harder with the warm weather, dry conditions.....and running out of fuel.

Sam Rogers was the lucky winner of the raffle and took home a set of X11 tyres which he apparently needed badly, so a timely win for Sam.

Big thank you to Andrew Atkinson for help setting sections on Friday and Saturday and of course to the many people that came early on Saturday morning to help us finish setting them by midday...many hands made light work alright.

Thank you to Denys Reed for always ensuring our toilet is on site, pumped out, cleaned and ready for its first customer. Of course, our ladies, Kerry, Christine and Cherie for looking after our scores. We thank the Hot Dog man Brad McAllister for feeding us those hotdogs that are apparently better with the skin on.

Without volunteers and supporter you will no doubt agree its these people that makes a club work, so thank you again to all these people.

We next head to Toonumbar Dam just outside of Kyogle (NSW) hopefully the creeks will have some water in them just to spice things up a bit.....but be careful what you wish for right.?

Cheers

Harry
