

EM
ELECTRIC MOTION

**EPURE
KIDS**

**THE KIT ADAPTED
TO YOUR EPURE
FOR YOUR KID**

EPURE KIDS OPTION

Between 9 and 16 years old, it can be difficult for parents to renew their child's motorbike, it has become too small for their size, not powerful enough or simply not anymore suitable.

As a manufacturer of electric trial motorcycles, our challenge is to offer the possibility of having a motorcycle that can and will evolve over time with your child.

ELECTRIC MOTION offers you a bike suitable for your child from the age of 9 and who can accompany him until adulthood.

Indeed, the « EPURE Kids » kit includes all the parts necessary in order to be able to adapt a standard model from the EPURE range to your child from a very young age and in complete safety.

Over the years, the child has grown and so has his EM bike.

GET STARTED SAFELY

- No heat zone
- Adapted and scalable mapping
- Power management
- Reduced Weight
- No Kick Starter
- No Petrol
- No Noise

LEARNING / EVOLUTION / SHARING
